Subject: FLUOROS 2015 presentation

Good afternoon Tala,

I recently attended the FLUOROS 2015 conference and was wondering if you would agree to share your presentation (Powerpoint or pdf would be fine). I would like to get a copy in order to complete my notes as I was not quick enough to catch everything I wanted to record, unfortunately. I am currently working as a consultant on a site where firefighting training occurred and where fire retardants were tested. I am fairly new to the PFAS assessment and remediation world and am definitely interested in learning more about how these compounds are dealt with in your jurisdiction(s).

Thank you for your time and consideration,

Jean-Philippe
